

REMARKS

1. It is respectfully requested that the foregoing Preliminary Amendment be entered prior to examination of the application to place the application in condition for examination and allowance.

Amendments to the Claims

These amendments are believed not to introduce new matter and their entry is respectfully requested.

3. The Specification has been amended to add continuation application information and add the application number to the related application. Also, the title of the invention has been amended to more accurately reflect the claims now pending in this continuation application. No new matter has been introduced.

CONCLUSION

4. Applicant respectfully asserts that this application is in condition for allowance. A notice to this effect is respectfully requested.

Respectfully submitted,

Larry E. Maple
